

## Save \$2.00 each on future purchases by purchasing the 6w LED Black Light from my website

Thank you for purchasing a black light from SpiderWebMan. I have tested many black lights and these are the best ones for the money that I have found.

I have some videos that compare the UV glow you will get from various black lights. Go to [www.youtube.com](http://www.youtube.com) and search for "SpiderWebMan Black Lights"

The 6w UV LED Outdoor Black Light is available on eBay for \$29.99. It is available on my website for \$27.95 at [www.spiderwebman.net](http://www.spiderwebman.net). It is near the top of the "Purchase" page. The 6w UV LED Outdoor Black Light is the best value, it costs a little more but it produces 3 times more UV glow than the 3w UV LED Outdoor Black Light.

6w UV LED Outdoor Black Light

Or if you want a light that is not as bright or you need a light with a spike you can get the 3w UV LED outdoor black light. It is available on eBay for \$19.99. It is \$18.95 on my website at [www.spiderwebman.net](http://www.spiderwebman.net). It is also near the top of the "Purchase" page. The 3w UV LED Outdoor Black Light is available with the spike or a flat mounting plate, and you can get in wide angle (120 degree) or narrow angle (60 degree) beam.

3w UV LED Outdoor Black Light

If you should be displeased with the Black Lights for any reason let me know and you can return them within 14 days for a full refund or replacement.
